

UDAYRAJ SAROJ

Location: Vasai, Mumbai, Maharashtra | **Phone:** +91 8432918925

Email: udayrajsaroj55@gmail.com

CAREER OBJECTIVE

A highly motivated **BSc IT** graduate from Viva College with a strong foundation in full-stack development. Eager to leverage my technical skills in the **MERN stack** and logical problemsolving abilities to contribute to a dynamic IT team. Committed to continuous learning and professional growth as a Fresher.

EDUCATION

- **B.Sc. in Information Technology (BSc IT) | Viva College, Virar**
 - *Status:* Final Year (Semester VI) — Results Awaited (2026)
 - *Key Subjects:* Software Quality Assurance (SQA), Information Security, Business Intelligence, MERN Stack Development.
- **HSC (12th Grade) | Maharashtra State Board | 57.50% (2023)**
- **SSC (10th Grade) | Maharashtra State Board | 80.60% (2021)**

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (React.js)
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, MySQL (Basic)
- **Tools:** VS Code, Git/GitHub, MS Office

ACADEMIC PROJECTS

Project Title: Treasure to Charity (Major TYIT Project)

- **Technologies Used:** MERN Stack (MongoDB, Express, React, Node.js)
- **Role:** Lead Developer

- **Description:** Developed a web-based donation platform designed to bridge the gap between donors and charitable organizations.
- **Key Feature:** Implemented a unique **30-30-40 resource allocation logic** to ensure transparent distribution of donated goods and funds.
- **Outcome:** Streamlined the donation process and provided a user-friendly interface for tracking contributions.

Project Title: IronPulse (Gym Management & Attendance System)

- **Technologies Used:** MERN Stack, Socket.io, JWT
- **Role:** Lead Developer
- **Description:** Built a real-time gym management system focused on secure access control and automated attendance.
- **Key Features:** Engineered a **rotating QR-based token system** that generates time-sensitive codes to prevent unauthorized entry.
 - Integrated **Socket.io** for real-time updates and a dashboard for monitoring member check-in/check-out logs.
- **Outcome:** Enhanced facility security and eliminated the need for manual attendance tracking.

Project Title: SmartEvent (Event Booking & QR Verification System)

- **Technologies Used:** MERN Stack, JWT, QR Code Integration
- **Role:** Lead Developer
- **Description:** Developed a streamlined event booking platform focused on automated attendance tracking and secure entry management.
- **Key Features:**
 - Engineered a dynamic QR-based verification system that generates time-sensitive tokens to ensure secure, contactless event entry.
 - Integrated a real-time admin dashboard to monitor live attendee check-ins and manage capacity seamlessly.

- **Outcome:** Digitized the registration process, reducing manual ticket verification overhead and enhancing overall event security.
-

STRENGTHS

- **Logical Thinking:** Skilled in breaking down complex problems.
 - **Quick Learner:** Highly adaptable to new technologies and programming frameworks.
 - **Discipline:** Passionate about music (Guitarist), which has built focus and patience.
 - **Communication:** Actively improving English speaking and interpersonal skills for professional environments.
-

INTERESTS & HOBBIES

- Music (Acoustic Guitar)
 - Problem Solving (Chess Puzzle solving & 3x3 Rubik's Cube)
 - Gaming (Competitive Strategy)
-

DECLARATION

I hereby declare that the above-mentioned information is correct to the best of my knowledge and belief.
